

DEATH STOPS HARRY THAW'S TRIAL

CANNOT AGREE ON THE WAGES

Carmen's Arbitration Committee
Unable to Come to an
Agreement.

SAN FRANCISCO, Feb. 14.—The settlement of the problem of the Carmen's hours and wages by arbitration seems to be as far distant as ever. The board will hold another meeting this afternoon, but its members do not appear to be hopeful of its outcome.

There seems to be three different opinions on the question, and it is not improbable that there will be three different opinions handed down.

At first it was believed that there would be two reports made to the Carmen and their employers, one the decision of the majority and the second the opinion of the dissenting member. Now, it is said, new difficulties have arisen, and although the board has agreed on the cases of all other employees, they seem unable to do so in this instance.

Chief Justice Beatty stated today that the board would meet this afternoon, but he was very dubious regarding the outcome of the meeting. Beatty, who was chosen by both sides to be the third arbiter, declared that he is still writing his opinion, and he supposed the other members are writing theirs.

HUSBAND HELD FOR MURDER

SAN FRANCISCO, Feb. 14.—The death of Mrs. Eliza Hilderbrand in the refugee camp at Harbor View this morning under circumstances that indicate that she may have been murdered caused Captain of Detectives Dule to arrest her husband, John Hilderbrand, and Dan McGowan. The woman's death followed a carousal in which she and the two men participated.

SAN FRANCISCO, Feb. 14.—Another story says Mrs. John Hildebrand, a refugee residing in Tent No. 105 at Harbor View, was discovered today with blood gushing from her mouth. She died a short time later, before medical assistance could reach her. It is not known what was the cause of the woman's death, and the police are endeavoring to solve the mystery. Her husband and a man named D. McGowan have been arrested on a charge of having been instrumental in her death. They are locked in the Bush street station, pending an investigation. The woman's remains were taken to the morgue.

FORTUNE GOES UP IN FIREWORKS.

F. J. Fong, one of the wealthiest Chinese merchant princes on the Pacific Coast, gave an exhibition of fireworks at his home, 1019 Fourth avenue, last night, which was witnessed by thousands of Oakland residents and which was one of the grandest displays ever given on this coast. A fortune was spent by the wealthy Chinese in entertaining his guests and the crowd of spectators. Over 400,000 firecrackers were fired off as a preliminary, to be followed by innumerable skyrockets, Roman candles, set pieces of patriotic, religious and mythological designs and a variety of mines, Bengal lights and a multiplicity of rare and expensive fireworks.

Scores of leading Chinese and Americans had been invited to the residence of the merchant prince to partake of his hospitality and enjoy the grand display. A bounteous banquet was served at the conclusion of the exhibition, several hundred guests being entertained. It is estimated that Fong's display cost about \$3,000.

GEMS VALUED \$6,500 STOLEN

Divorced Wife Madly in Love
With Former Husband
Causes Arrest.

SAN FRANCISCO, Feb. 14.—A warrant has been issued by Clerk McCarthy for the arrest of William Joseph Baker, who is charged with stealing \$6,500 worth of diamonds and other jewels from Miss Maud Lux, Baker's divorced wife. Baker is alleged to have obtained the key to a private vault in the First National Bank, where the woman kept her jewels, and to have possessed himself of them.

Miss Lux, who is very beautiful, is deeply in love with her ex-husband and has been trying for some time to win him back. When the jewels were taken some time ago she did not then intend to prosecute him, but since she has learned that he is paying marked attentions to another woman, who lives on McAllister street, near Hyde, and hence the issuing of the warrant today.

Among the jewels stolen were twenty-four diamonds, a diamond sunburst and some pearl ornaments.

DARING ROBBERY ACROSS BAY

SAN FRANCISCO, Feb. 14.—A daring robbery took place in this city last night in the jewelry store of William Schettler, at 2392 Mission street. Schettler's seventeen-year-old daughter, Tillie, was attending to the store during the brief absence of her father, when a man entered the place and asked for a watch he had left there to be repaired. While the girl was looking for the watch, two other men entered the store and succeeded in stealing a tray of jewelry containing forty-three rings. The girl did not know she had been made the victim of a plot until the man and rings were gone, and her father returned to inform her that the first man had had a watch repaired there, but had received it some time before. The police are looking for the robbers.

DIVORCE ASKED BY RESCUED CHINESE SLAVE GIRL

Married in China by Ceremony She Did
Not Understand and Shipped to
San Francisco.

Chun Kum Yoke, a pretty slant-eyed girl from the Orient, but now in the care of the Presbyterian Home in East Oakland, having been rescued from a Chinese brothel about a year ago, has petitioned through her attorney, E. S. Page, to have the marriage between herself and Ng Juek annulled. Chun Kum Yoke states in the petition that they were married in Hong Kong, China, in June, 1906, and that the ceremony was performed by some white man, but at the time she did not know what was being done. The Celestial wife was unaware of the

true situation, for every word of the ceremony was in English, and at that time she did not have any knowledge of the English language, and after the knot was tied she was shipped over to this country, she asserts, for immoral purposes.

Chun Kum Yoke says that her husband has not lived with her since the ceremony. She was placed in a Chinese brothel upon reaching San Francisco. The Presbyterian Home freed the young woman and the past year she has been in the mission home in East Oakland.

CAPTAIN WAS FIRST TO DESERT HIS SINKING SHIP

Crew Got Away Safely From Larchmont,
While Passengers Were Left to
Their Fate.

PROVIDENCE, R. I., Feb. 14.—A new element was injected into the horror attending the loss of the steamer Larchmont in Block Island Sound Monday, through a collision with the schooner Harry Knowlton, when Captain McVey of the steamer, early today admitted that his lifeboat was one of the first, if not the first to leave the sinking ship. This statement was made in reply to charges by Fred Hiersell, an 18-year-old lad of Brooklyn, one of the survivors, that the passengers were left to shift for themselves; that the ship's crew gave up their tarp and crouch in the bottom of the boat out of the way of the piercing wind.

Everybody was on the leeward side and he ordered his men to row around there, he claims, but the gale balked his plan and as the boat was driven away from the steamer his men had to give up their tarp and crouch in the bottom of the boat out of the way of the piercing wind.

71 BODIES FOUND.

At 8 o'clock this morning the number of known lost in the frightful calamity stood at 138. At least 157 persons were known to be upon the ship, or in other words, that while twenty per cent of the crew was saved, only 8 per cent of the passengers survived.

Captain McVey explained that while his boat may have been the first in the water it was because he had a good crew and that he remained by the ship until it went down. He said that he made no move to get into his boat until he had given orders to his men to leave all the boats and clear away the rats.

CAUGHT IN WHIRLPOOL.

While his boat was in the water it was dashed into the ship by a rope in the running gear that had been caught and this was cut by Bowes, who saw that with the ship settling rapidly the boat and its occupants would be caught in the whirlpool and sucked beneath the surface. The captain's boat was on the wind-

The report is again current that Mrs. Charles J. Holman, mother of Evelyn Nesbit Thaw, will be called as a witness for the State by District Attorney Jerome. It is stated that Mrs. Holman, since the revelations made by young Mrs. Thaw, has expressed a desire to be called as a witness and she is said to have told a representative of the district attorney that she wished to deny certain portions of her daughter's testimony.

WITNESSES ARE FORGETFUL AND STANLEY IS FREED

Woman Is Spirited Away Who Accused
Him of Striking Her With
Buggy Whip.

Although she was vehement in her accusations against Harry J. Stanley, representative of Rothenberg Company, wholesale whiskey dealers, Mrs. Mamie Johnson did not put in an appearance in police court No. 2 this morning to testify against the man she had arrested on a charge of battery, declaring that he had lashed her across the face with a buggy whip as she was crossing Broadway at Eighth street. Mrs. Johnson is said to be in Los Angeles. Other witnesses for the prosecution, Mr. and Mrs. W. H. Brooks, with whom Mrs. Johnson resided; T. G. De Lancey, a car conductor, and A. P. Shumacher, a motorman, who were also enraged at Stanley at the time of his arrest, could not substantiate Mrs. Johnson's

charges, knowing nothing about the case, and the charge was dismissed. Stanley was also charged with drunkenness. Policeman McKeegan, who arrested her at Mrs. Johnson's instance after a four-block chase, swearing to the complaint. Stanley was found guilty on this count, upon the testimony of Policemen McKeegan and Thompson and Sergeant Cockerton. G. Horgan, R. V. McPherson and W. L. Hackett testified that they did not believe Stanley was intoxicated.

In passing sentence Police Judge Samuels said: "When a man begins to drink I haven't much use for him. However, the defendant seems to have been humiliated sufficiently and I will suspend judgment." Stanley was defended by Attorney Abe Leach.

ARMED FOOTPADS ROB MAN AT NIGHT IN LINCOLN PARK

O. H. Hays Relieved of \$14 in Cash and
the Posse of Police Fails to
Apprehend Robbers.

While walking through Lincoln Park last night about 8:30 o'clock, O. H. Hays, an engineer, was held up by two armed footpads and relieved of \$14 in coin. Hays went to the police station immediately after being robbed and reported his experience. A posse was sent out to find the highwaymen, but no trace could be found of them.

Both thugs were apparently young men and well dressed. One had on a black derby hat, while the other wore a soft light hat. Each was about 5 feet 8 inches in height and wore dark clothes with sack coats.

Hays was about to leave the park at Eleventh and Alice streets when

two men jumped out from the tree shadows and leveled pistols at him, with the command to throw up his hands. This Hays did, and one of the men stepped back and covered the engineer with a revolver while his partner rifled one of their victim's pockets.

The robber failed to search Hays' other pockets, and thereby failed to get considerable other money and valuables. The footpads then scattered away through the park and did not order Hays not to follow them, which the engineer did, but lost trace of them in the crowds.

Hays resides on Oak street and has been in this city but a short time, having come here from Fresno.

WIFE OF A JUROR PASSES AWAY

Hearing of Case
Is Continued
to Monday.

WASHINGTON, Feb. 14.—Representative Wharton of Illinois introduced a resolution in the House today authorizing the President to exclude from the mails any and all publications "containing the revolting details" of the Thaw case and other cases of similar nature.

LEBANON, Ky., Feb. 14.—The county grand jury last night returned indictments against the Cincinnati Enquirer, Louisville Herald, Louisville Times and the Evening Post for printing and circulating the "offensive and indecent proceedings of the Thaw trial."

NEW YORK, Feb. 14.—Owing to the death of the wife of Joseph H. Bolton, one of the jurors, the trial of Harry K. Thaw was this afternoon postponed until next Monday morning.

Mrs. Bolton had been ill for several days with double pneumonia. Her husband, who had been locked up with the eleven other jurors for more than three weeks, was allowed to visit his home twice yesterday and again early today. He was accompanied on each occasion by two other jurors and two court officers.

JUROR SUMMONED.

Mr. Bolton was in his place in the jury box when court convened today but it was known that his wife's condition was so critical that he might be called away at any moment.

The session had been in progress less than fifteen minutes with Dr. Evans continuing his direct testimony when the summons to the juror came. His home is far up in the Bronx and when Bolton got there he found his wife all but dead.

She had been kept alive by oxygen until he arrived, but expired within an hour after he reached her bedside.

It was agreed, on motion of District Attorney Jerome, that the other eleven jurors should not be kept under lock and key.

"It would have been well if the rule could have been adhered to until the end of the trial, but this unfortunate occurrence has prevented it.

JURORS GO HOME.

"You will be allowed to return to your homes now; but let me appeal to your honor to not read any newspaper stories of the case; not to speak to any one about the case and not allow

RAILROAD COMMISSION IS OUT OF DANGER

The Four-Track Railroad Bill Is Again
the Issue in the
Senate.

SACRAMENTO Feb 14 — It was railroad day in the senate today. At most the entire morning session was taken up with the reconsideration of Anderson's four track bill which has once been defeated in the senate and Senator Curtin's proposal of constitutional amendment abolishing the State railroad commission.

There was a little ruffle in the senate immediately after convening when Senator Anderson rose to a question of personal privilege and denied an illegal interview in a local paper in which he was quoted as having passed several questions upon the moral conduct of some of the members of the upper house and declaring that it was a disgrace to sit in the senate with them.

When the four track bill came up for passage Transonic bill passed by the assembly yesterday was defeated.

BAIL FOR MISS EATON

Girl Who Accused Sheriff May Hear the Trial of Young Pembroke.

Miss Grace Eaton will be released on \$2000 bonds this afternoon and will have an opportunity to hear the last of the case against her lover Percy Pembroke, which has been held in abeyance during the hearing of the preliminary motions interposed by Schmitz and Ruef.

There will be some difficulty in procur- ing the trial for the District Attorney has refused to permit any of the Pembroke family to put up the bond for fear they would sacrifice the \$2000 bond and allow Miss Eaton to disappear.

At noon yesterday the complaint charging Miss Eaton with perjury was filed in Justice of the Peace Quinn's court and an order made admitting to release the girl on bail. Her attorney G. J. McDonough will procure the necessary bail this afternoon and then the case of young Pembroke goes to the jury. He is to be tried again at his side after spending a day and night in the county jail.

COMPLAINT LONG

The complaint is quite lengthy and goes over the testimony Miss Eaton gave on the witness stand yesterday in which she denied the charge of perjury made by Sheriff Barnet at Eighth and Fallon streets about last Christmas when the official is said to have told her that she ought not to talk with a man of that name.

Deputy District Attorney W. H. Ives opened the argument this morning. Attorney Lin S. Churchill will submit his argument this afternoon and District Attorney Everett Brown will close the case for the prosecution.

DENIALS CLEVER

Percy Pembroke was the last witness in his trial yesterday afternoon and was directly examined by his attorney Lin S. Churchill and then taken for cross examination by Prosecutor Attorney Hynes.

The witness recited that every word that was said by the prosecution hit him but the attorney went over the confessions before him. To every question he would give a negative answer and when asked if he had lied he would say that he did and they might have been lying but he was the best of his recollection they had not.

Pembroke's testimony was nothing more than a complete denial of all the evidence introduced by the prosecution.

The attendance of the jurors will no longer be required in court and it is possible that the true bills which they have found and are now withholding will be presented to Presiding Judge Coffey.

Individually the members of the grand jury have been carefully canvassing the principal officers. A thorough investigation has been made in many of them but the result of the inquiries has not been made known.

WANT AMBULANCE FOR HOSPITAL

A movement is now on foot to request the Board of Supervisors to secure an ambulance for the Receiving Hospital. The emergency work is being done by the police patrol which also has to carry prisoners from all sections of the city. If a hurry call comes in and the wagon is out which it generally is the injured person may die. The police department is to have an auto car and also an auto patrol and it is suggested that the Supervisors obtain a suitable hurry-up wagon for use in taking cases to the Receiving Hospital.

What Ails the Olive Oil Industry?

Senator Perkins has discovered that ripe olives are being imported free of duty. It may perhaps be news to him that large quantities of green olives pickled in brine are imported from Spain in huge casks, to be bottled and placed on the market labeled to denote their character. The bulk of the Spanish olives sold in California are imported duty free in this way. The Dingley tariff act levies a duty of 25 cents a gallon on "olives, green or prepared, in bottles, jars or similar packages," but makes no provision for taxing either green or ripe olives imported in casks. The Dingley act provides also for the free admission of "fruits or berries, green, ripe or dried, and fruits in brine, not specially provided for in this act." It is under this clause that both green and ripe olives are imported duty free in bulk to compete with the California product. This serves to explain why grocery stores in this State carry such large stocks of Spanish olives.

It is worthy of remark that large quantities of alleged "pure French or Italian olive oil" are sold in California far below the prices that domestic growers can quote. Practically all of this oil comes from Marseilles, France, which takes the bulk of the cottonseed oil produced in the United States. French olive growers are clamoring for a higher duty on cottonseed oil on the ground that its importation is ruining the olive oil industry of France. The cottonseed oil is refined, flavored, bottled and exported as "pure olive oil." This is mostly the stuff retailed in the United States as French and Lucca oil. Our consular reports show sophisticated and flavored cottonseed oil is ruining the oil industry of both France and California.

These facts serve to show that the olive industry of California is not flourishing, and explains in a measure why olive growers in this State are becoming discouraged.

San Francisco Port Improvements.

There seems no valid reason why the Legislature should not authorize an additional \$2,000,000 bond issue for the improvement of the San Francisco water front. All the commercial bodies of the city unite with the Harbor Commissioners in declaring that the proposed improvements are urgently needed and will increase the State's revenue from the harbor front far more than enough to pay the interest and principal of the bonds. The proposed loan will never cost the taxpayers a cent, and all the Legislature has to do is to pass an enabling act that will authorize the submission of the proposition to the electorate. Two previous bond issues have been made in this way, and there is absolutely no reason why a third should not be voted. The commerce of the port of San Francisco has far outgrown the facilities for handling it on the water front. It has anticipated the improvements contemplated in the bond issue voted two years ago—which were suspended for a time on account of the fire and earthquake—and it is now in crying need of accommodations. To withhold authority to borrow money for the enlargement of the dock and wharf facilities so urgently needed is to hamper the sea trade centering in San Francisco bay and to injure the commercial prestige of the whole State of California. Under the circumstances the reluctance displayed by some legislators to authorizing the proposed loan can only be ascribed to sectional jealousy or to rural misunderstanding in regard to the matter.

The elaborate editorial argument in favor of exempting church property from taxation, printed in the Sacramento Union, reads as if it were written by some clergymen. Indeed, we strongly suspect Rev. Charles L. Neil of being the author. He wields a facile pen, and his tastes run toward journalism.

"Subscriber" is informed that no accurate estimate of the population of Oakland can be given. The number of people dwelling in the 15½ miles of territory embracing the city of Oakland proper is variously estimated at from 200,000 to 250,000, but the city is surrounded by a thickly populated urban belt that is commercially and geographically a part of Oakland. Including the incorporated cities of Berkeley and Alameda, the entire urban district on this side of the bay contains fully 300,000 inhabitants.

"Inquirer" is informed that Ye Liberty has the largest seating capacity of any theater in Oakland.

Scheme of University Disruption.

Says the Woodland Democrat: "We believe that the original idea was to establish an agricultural college on the State farm and that simply to make the farm an experiment station does not meet the requirements of the law. We do not believe that an agricultural college should be established on the State University campus."

By whom was it originally understood? When such desperate efforts were being made to get the University farm located at a long distance from Berkeley, THE TRIBUNE asserted that there was a scheme to detach the Agricultural College from the State University and move it off by itself. This was at first vociferously denied and then admitted by the Woodland Democrat and a few other journals, but it has never been understood by anybody else that the Agricultural College was to be moved to Davisville or any other place. The Democrat simply refers to its own desires and designs when it says there was an original understanding to the effect that the college was to be taken away from Berkeley.

Some time ago we pointed out that the scheme to establish the Agricultural College at Davisville would develop antagonism to the University and array in divided hostility educational interests which should be one and inseparable. That prediction has already been fulfilled. The Davisville farm has been made an instrumentality for attack on the University, and henceforth each session of the Legislature will witness efforts to cripple the State's great seat of learning that more money may be expended at Davisville. This comes of making the educational institutions of California the football of political geography.

"From our experience at the average Oakland restaurant an Oakland cook can kill a man much easier and a great deal nearer by cooking for him than by shooting at him," says the San Leandro Standard. Why don't you try some place not run by Japanese?"

Speaking of the religious controversy, a French paper says "Napoleon did not go to Canossa." No; but he went to St. Helena and the Pope remained in Rome.

Road Improvement at Sacramento.

The dilatory and indifferent way in which the Legislature is treating the question of road improvement is difficult to understand. A system of firm, smooth graded highways is one of the greatest needs of California. The necessity for it has been repeatedly pointed out by such organizations as the State Grange, the Miners' Association, the State Board of Trade and the California Promotion Committee, and a public discussion running through a period of years has served to reveal the defects in the existing laws relative to the construction and care of public roads. At the moment when discussion and sentiment have crystallized into concrete suggestion, the Legislature suddenly manifests a disposition to relegate the whole subject to the lumber yard. Members who were enthusiastic for road improvement on an organized plan have grown strangely indifferent. Is it because so many are interested in maintaining the present wasteful, slipshod, piecemeal method which is so profitable to contractors and handy for parochial politicians? Is the organized opposition of the Supervisors more powerful with the Legislature than public demand and public necessity? It looks that way.

AMBASSADORS TO FOREIGN ORDER.

Shall the United States itself determine when it will establish an embassy abroad, or shall that matter be left to the wishes of the foreign state? We have been in the somewhat curious, if not humble, position of inviting the establishment of embassies. Our law provides that when a foreign state establishes an embassy at Washington by a foreign country does not insure a return of the courtesy—it the whole question could be removed from the domain of international courtesy—it might be well to allow the law to remain as it is. But such a change in international

preparing to send an ambassador to opinion and custom on this matter would be revolutionary. And therefore it will be just as well to let the foreign state know that it can no longer turn the crank that will set the laws of the United States in operation, grinding out grist to its order. In providing for this repeal there need be no intention to reflect upon Chili or any other country, but merely an expression of an intention to keep the matter a little more closely under our own thumbs.—New York Globe and Commercial Advertiser.

THIS MAN PREDICTS TEMBLORS.

Hugh Clements, who became known to fame because he predicted the Kingston earthquake, now says that on February 21 earthquake shocks will be felt in the eastern counties of England and on the Anglo-Scottish border. His words will receive attention because of the success of his previous prediction, which was remarkable, though fulfillment was two days late, and it in the neighborhood of February 21 earthquakes occur in the places stated, serious attention will have to be given to his theories.

Those theories are interesting, however novel. Mr. Clements says that the earth is a densely solid body toward the center, the outward part of it, however, being less dense. This

comparatively loose covering, like the water on the surface and the atmosphere surrounding it, is subject to the influence of attraction exerted by the sun, moon and other bodies, which pull it around in just the same way that the tides are caused.

When the attraction is particularly powerful, as it is when the sun and moon are in a certain position, it is sufficient to drag the surface of the earth sharply, thus causing what we call earthquakes. It also affects the atmosphere, pulling the air away from a certain spot and allowing air from the surrounding area to rush in to fill the vacuum, by which means cyclones, tornadoes and other great storms are created.

There is some difficulty in seeing how

Mr. Clements is able to determine which particular spots on the surface of the earth are to be especially affected, but if earthquakes come to the parts of Great Britain he had named we must allow that he can do so. In that case the Clements theories will have to be treated with respect, and what he has to say about them will be listened to eagerly.

By the events of February 21 or thereabouts Mr. Clements will stand or fall. If his predictions are fulfilled he will become one of the greatest scientists of the world, for no other man has ever since the first earthquake been able to throw the least bit of light on the cause or nature of these terrestrial disturbances.—Chicago Journal.

SO THE GIRLS ARE TO BLAME.

The debate on the free seed question in the house at Washington was enlightening. For the first time in history it brought out the real reason why the free distribution of seeds is maintained.

It has been long contended that the distribution was for the benefit of the farmers, but the farmers in their organizations have been making it clear recently that the practice is not only of no benefit to them, but is in some respects a nuisance which they would like to have stopped. If the farmers

do not want free seeds, then who does? The blame has to be put on some one; there has to be an excuse for doing something nobody seems to want. Therefore, the whole responsibility is thrown upon the pretty girls, not all the girls, over the prettiness of their looks.

If the free seed distribution should be shut off, asked one congressman, "how will you and I send our pretty girls any flower seeds?" And the truthful reply came from a Mississippi member that "we will not have any flower seeds to send to the pretty girls, and they will look longingly with their bright and smiling faces, anxiously desiring the flowers, but we will not be able to say no." Even with a raise of wages, the congressman would not be able to get flower seeds to send to the pretty girls like these things better even than flower seeds.

When the millinery, the furs, the pretty girls, the tailor-made suits arrive, the pretty girls will be more even prettier and they will be smiling with their bright and smiling faces, for the arrival of the day or perhaps tri-weekly mail from Washington. If they are going to take the blame they ought to get the goods—Philadelphia Press.

TRIES TO CAST OUT DEVIL AND GIRL PASSES AWAY

Mother Throws Away Medicine Doctor Leaves for Child, Who Is Dangerously Ill.

WASHINGTON, Pa., Feb. 14.—The coroner was told of a peculiar case at Rice's Landing which he will investigate thoroughly.

According to the story Mrs. Sebastian Taros believed her three-year-old daughter possessed of a devil and the child died while the mother was resorting to incantations to cast out the evil one.

It is alleged that while the child was dying the mother was in an out-building pouring melted candle grease through her wedding ring to bring before her the face of the witch which she considered responsible for the trouble in her family.

When the child became ill a physician was called and left medicine.

instructing the mother how to use it. The woman is reported to have thrown the medicine out and announced she would use her own means to cure the child.

She first cut off a portion of her own hair, it is asserted, shingled the heads of her husband and the child, and then mixed the hair together, covering it with dough. This she rolled into a ball, and, after throwing it over the top of the house, took it to the nearest crossroads and buried it, believing the first person to pass would become possessed of the evil spirit that afflicted her child.

When this failed, it is said, the mother resorted to the wedding ring and candle grease.

FEAR OF LOSING CHILD KILLS HER GRANDPA

Worry About Parents' Litigation for Baby Girl Causes Sudden Death of an Aged Man.

NEW YORK, Feb. 14.—Worry lest he be separated from his little granddaughter, Muriel, whom he loved dearly, was the cause of William B. Green's sudden death in the town hall. Flushing, L. I., yesterday. Mr. Green suffered from heart disease.

While lawyers were arguing before Justice Garretson whether Muriel's father—Mr. Green's son—or her mother should have charge of her, Mr. Green, anxious and agitated, expired in the corridor below the courtroom.

Muriel is four years old. Her father, Albert C. Green, contractor and her mother separated two years ago, and died.

SOCIETY CARDPLAYING LEADS TO 32 ARRESTS

Missouri Gamblers, Who Are Arrested, Bring Charges Against Leading Citizens.

PRINCETON, Mo., Feb. 14.—Thirty-two residents, among them some of the most respected citizens in Princeton, have been arrested, on information filed by Prosecuting Attorney B. F. Kesterson, charging the playing of cards for prizes.

Kesterson has been clearing out gambling places, and gamblers, in turn complained to him against society card-players.

As some persons under age are concerned, the penalty may be not more than six months in the county jail.

USED HER STOCKING AS A HIDING PLACE FOR MONEY

Told a Young Man About It and Later the Bills Were Found on His Person.

PITTSBURG, Pa., Feb. 14.—Miss Birdie Hall of Espanola street, Allegheny, has deposited \$400 in a Pittsburgh savings bank and at the same time registered a vow that if she ever did have another roll to carry about she would not conceal it in her stockings, or, if so, that she would not tell any young man where she had it when he got it. Perhaps it fell out on the floor and he picked it up.

"I'll discharge him," said Magistrate Huddfield, as he glared at Smith and grinned at the shapely Birdie. "Don't blame him so much for getting the money, but he ought to have put it back where he found it."

CUCUMBER MILK—Slice without peeling four large cucumbers, add a cupful of water, boil until soft, cool and strain. To one and one-half ounces of juice add equal portion of alcohol; let stand over night, add eight ounces of cucumber juice, one ounce of oil of sweet almonds twenty drops of tincture of benzoin and a pinch of boric acid. Shake well. Apply twice a day with a sponge.

Birdie put the bundle in her stockings, she met some girl friends who were going to have dinner with some of the boys at a swell Pittsburgh restaurant. She joined them and, making friends with Frank Smith, who sat at her side, told him about the money and where she kept it.

This was enough for Frank. He couldn't lose Birdie after that, and then he and Birdie bade good-bye at the home plate, about 2 a. m., both were full of affection and grape juice. When Birdie awoke she still had her stockings, but no money. Later she had Smith arrested and the police found the \$400 on him. But Birdie made a plea for him.

"It was my fault, Your Honor," said she. "I shouldn't have told him where the money was; but, at that—well—er—er—I don't know how or

LYRIC.

I launched my craft in the ides of June,
And sailed, on a sea of song,
For the golden shore of the Harvest Moon,
Where the sweetest dreams belong.

I dipped my oars, with a rhythmic play,
In the white of my ocean's breast,
And found, at the end of an autumn day
The port that I loved the best.

I banked my boat on the sands of Time,
In the glow of the star-eyed night,
Where the dryad whispered a silvan rhyme
In the ear of the rose-leaf sprite.

And the dew-time fairies sung to me
The lore of the woods and mere,
And prisoned a theme, as a gift, to be
The lilt I have fashioned here.

—Stacy E. Baker.

THE WAY.

Shall I complain against stern Fate's decrees?
Cry out that life is dreary and my lot
Too hard to bear, and weakly pray surcease
Of each day's trials that they shall vex me not?

Nay, let me rise to simple kindly deeds;
Let me stretch out my hand in friendly love;
Forgetting self in thoughts of others' needs
And thus, through service, reach the heights above.

CONCERNING FAIR SEX

The teachers of New York are working for higher salaries, more than 7000 women asking that sex be not considered in apportioning salaries. They also ask that no teacher be required to have more than forty pupils in a class.

A little old lady, clean, neat and refined, wearing the regulation white linen bonnet and pink shawl of the workhouse, is now an inmate of Strand Union, Edmonton, England. She was formerly Miss Lennox Gray, the beautiful and talented woman who played the part of Genevieve de Brabant in the opera of that name. She can still sing and play, but is much broken with age and misfortune.

The physical characteristics of the English are altering rapidly, says a writer. The tall, graceful woman with the finely-shaped head, well chiselled nose, kindly eyes, sweet smile, small feet and hands, and light tread is almost extinct; she is being replaced by big-made women, with a firm chin, hard-looking, and taking long, decisive strides.

Mme. Bethell of Hull, England, who entered on her one hundred and first year the other day, is the daughter of a Spanish officer who was taken prisoner by Napoleon. She was brought up in France and was living with her godmother, Mme. de la Tour, at the Mint house at Paris when it was seized by revolutionists and the occupants turned out during the revolution which caused Charles X. to abdicate. She remembers Napoleon the Great, Louis

Princess Victoria Patricia, the daughter of the duke and duchess of Connaught and niece of King Edward, is one of the most traveled of the young English princesses. Last year she passed in South Africa and now she expects to visit India and Canada with her parents. Although she is barely twenty-one, she has gone about much more than most of her cousins, the majority of whom were married very young, but among them none of them is more popular than this vivacious little lady, who will be among the next royal visitors to the American continent.

FOR A WHILE
Oh, brides of autumn,
Or of June;
Oh, brides of night,
Or brides of noon,
You set the whole
Wide world astir,
You know you do!

For you the skies
Look down and smile,
For you earth wears
Each sweetest wife,
For you birds carol
All the while,
They do, for you.

For you the
Reddest roses blow,
For you the sweetest
Blossoms grow;
For you the stars
In heaven glow,
The whole night through.

Just you the world
Stops to admire,
For you the poet
Strings his lyre;
For you, your man
Will light the fire
While love is new.

Broad shoulders characterize the first of the spring shirt waists. The smartest design for a linen shirt waist is made with three deep plats on each shoulder, back and front. At the back the plats taper toward the waist. The pattern provides for a high band turnover collar, but the waist is also finished with a neckband, so that it may be worn with a stiff linen collar if preferred. The regular shirtwaist sleeve is used, finished with a straight cuff. The fastening of the waist is in the front through the center box plait. The stitched plats and the broad shoulder tabs give this shirt waist an air of newness and smartness. Though this spring the lingerie waist will be more in vogue than ever, yet the tailor-made linen waist will also be much in demand.

OLD MAN DIES MARTYR TO ANTI-TOBACCO VOW

Religious Awakening Results in Almost Sudden Demise of an Aged User of the Weed.

ATLANTIC CITY, N. J., Feb. 14.—Believed by his family and neighbors to be a victim of his devotion to an anti-tobacco pledge taken during a recent revival, John Henry Johnson, of Port Republic, died at his home in the little mainland city last night.

Although informed that return to tobacco might save his life, the aged man refused to give in to the temptation. "I would rather die because I am trying to do right than perish in hell fire in another world," he declared.

Sturdy neighbors who gloried in the old man's attitude gave him encouragement. The aged martyr to his beliefs was conscious to the last, and died in the strength that held him faithful.

WOMAN IN CISTERNS FOR HOURS TO SAVE CHILD

Trapped, She Stands in Water, Holding Babe High Until Both Are Rescued.

BLOOMINGTON, Ill., Feb. 14.—Frenzied by the sight of her baby girl drowning in a cistern, Mrs. Henry Walters plunged into the water today to save her child. She was unable to get out again, and stood for hours in water up to her chin, holding the child above her head, until rescued.

A still younger baby was the only other occupant of the house at the time, and the imprisoned mother tried to make the little one understand her plight and call assistance.

The baby could not understand, and lingered about the cistern until Mrs. Walters was rescued.

DIES ON HER WAY TO FUNERAL OF A FRIEND

A Philadelphia Woman Seized With a Fatal Attack, She Falls in the Street.

PHILADELPHIA, Feb. 14.—On her way to attend the funeral of a friend, Miss May Duffy dropped dead.

Miss Duffy was about 40 years old, and lived with her sister at 1526 North Second street. She numbered among her dearest friends the family of Frank Staab, a grocer, at Twenty-eighth and Jefferson streets. Mr. Staab's mother died two days ago. Miss Duffy had almost reached the Staab house, when

BRITT-GANS FIGHT STILL IN AIR

By EDDIE SMITH.

The debating of will he or would go through with his proposed Britt-Gans fight is becoming so monotonous that to write the name Mike Riley almost gives one the writer's cramp. Some men receive more space in the papers than they are entitled to and Riley is surely one of them. He says he will post the forfeits and when pressed, backs and fills on some ridiculous stuff such as the one he is now stalling on.

The articles of agreement call for no money to be placed in the hands of a San Francisco sporting writer. Now Riley says if Coffroth and Sell want to talk cash forfeits that he will over any part of a hundred thousand dollars in the Tonopah Bank.

RILEY IS MAD

Riley is so mad and worked up over the fact that the Frisco fans started the rumor that he was going to fall own on the Britt and Gans fight that he is prejudiced against anything from Frisco to that extent that he would like to have nothing to do with any of them.

This feeling will grow as most every Idiot in the town has a grievance against San Francisco. They claim that when they were making a start an Franciscans knocked them and ridiculed the idea of gold being found in such a place. This has nothing to do with the fight, but it is that feeling that may sooner or later assert itself and then the fight will be off for sure, so whether or not it will take place no one can tell.

HARTMAN'S VICTORY

State Senator Hartman won his first victory toward the passage of his anti-fight bill, which, although apparently do tracked and pigeon-holed in the Committee on Public Morals, has come life again. It took a long hard fight to get it out of the Committee and before the Senate, is being opposed by one of the most brilliant debaters in the Legislature.

No doubt some of those who fought the placing of the bill before the Senate did so realizing Hartman's reasons for introducing such a bill. The boxing fraternity who have been rejoicing for the past few weeks believing that the measure has taken the count in the Committee had little to say last night. The long faces seen in the sporting resorts along Rue de Philmore however told the tale. The fans and

promoters will now be on the anxious list until the bill either passes or is defeated.

WERE CONFIDENT

Many of the sports have felt all along that there was little danger of the bill passing. Morris Levy and Eddie Graney being exceptionally confident that Hartman would give up the struggle long before now.

Graney even offered to bet the writer a new hat that it would never come up for a reading in the Senate.

At the last meeting of the Legislature when the Raiston anti-fight bill was being fought the opponents of the bill received some help from those identified with the game. This time however, nothing has been done in regard to making an active fight against the measure so Hartman, although opposed by many of his more able colleagues, has had a good deal of the best of the fight.

BY GOOD MAN

If the measure was being placed before the Senate by a man who was acting in good faith as Mr. Raiston did there would be no criticism from the sporting writers. In fact, while many did not agree with Raiston, there was never anything unkind said of him.

Now comes Hartman who is trying to pass a bill that at the previous meeting of the Legislature while he was in the Assembly he fought hard to defeat. This is almost too much for anyone who knows anything of his past to swallow, and if there is anyone who does know him it is sporting editors who are compelled to be around in the wee small hours of the morning gathering news for their readers.

ATTACK MOTIVES

Knowing him as they do each has attacked his motives in trying to pass such a bill and I say without the least fear that if the Senators knew Hartman as well as the writers do they would frown on the idea of such a man posing as a champion of Public Morals. Every man who votes to pass the present anti-fight bill helps a man work out a personal and unjust spite on the defunct fight trust and Jimmy Coffroth more especially.

BILL IS UNFAIR

There are good and bad features to the boxing game all will admit and in time we all hope to see them adjusted, but to pass the present bill is unfair to the public who enjoy boxing contests between professionals. There

would be almost as much cause to close a theater because some Senator went to the box office and demanded twenty free tickets which were refused him. This is the chief reason that Hartman has introduced the bill and it is hoped that it will be beaten if for no other reason than to show men of Hartman's calibre that they cannot use their political power to bulldoze personal enemies.

Graney even offered to bet the writer a new hat that it would never come up for a reading in the Senate.

At the last meeting of the Legislature when the Raiston anti-fight bill was being fought the opponents of the bill received some help from those identified with the game. This time however, nothing has been done in regard to making an active fight against the measure so Hartman, although opposed by many of his more able colleagues, has had a good deal of the best of the fight.

Marshall Jr. of the sloop Phoenix; secretary, William R. Harrison; financial secretary, William L. Spencer; treasurer, Roy C. Ward; messenger, H. A. W. Dinning.

FAST POLO AT

What gives promise of being one of the most interesting games of polo of the present season will be played at the Lakeside Rink tonight. Oakland is to oppose Piedmont, and as these clubs are evenly matched a keen contest is looked for by followers of the sport.

The last time these teams met a very keen contest resulted, each side scoring one goal.

Adherents of both sides are predicting a victory for their favorite tonight.

TRAINING TRIPS IN

Cleveland will train in Macon, Ga., St. Louis will go to Atlanta, Texas; New York of the American League, will train in Atlanta. Philadelphia will do their preliminary work at Dallas, Texas. Boston will train at Little Rock, Ark., while Washington is to invade Galveston, Texas.

The Chicago Cubs will go to West Baden, Ind. Pittsburgh has chosen the ideal place in Hot Springs, Ark. Cincinnati will train at Marlin Springs, while the St. Louis Nationals will go to Fort Worth. Brooklyn will train at Jacksonville, Florida. Philadelphia is to train at Savannah, Ga., and the new Boston Club will go to Thomasville, Ga.

OUTLAW LEAGUE
NOT FAVORED
HERE

OAKLAND BASEBALL FANS
FROWN ON DUGDALE'S
OPPOSITION.

Diamond News and Gossip of
League and Minor
Players.

By T. P. MAGILLIGAN.
The baseball-loving public of Oakland is not very much taken with the idea of an outlaw league, headed by Dugdale of Seattle. In fact, those in the know declare that the fat and hardy gentleman of the north is up against it so far as forming an opposition league to the Coast League is concerned.

"Outlaw baseball is a dead issue," declared a prominent ball player last night.

"I won't say this is a good thing for the player, but I know such is the case. The recent addition of the Tri-State League to the ranks of organized baseball sounds the death-knell of the outlaw game.

Even though the clubs of this league were backed by men of high means, and had no opposition in their section of the country, it was found they could not make the league a go.

That the ambidextrous Mr. Dugdale can make a success of a doubtful venture, when men of large means have failed, is something baseball men of Oakland cannot see.

In a well-played game of baseball, the third team of St. Mary's defeated the Oakland High School team at the college campus by a score of 4 to 2 yesterday afternoon. Coffey of the Oakland High School team pitched a nice game. Irwin at shortstop also played well for the Oakland High School team. Sheeley pitched a nice game for the St. Mary team.

The exact status of "Spider" Baum, who gave such excellent promise as a pitcher for Los Angeles, is worrying the Eastern sports writers, hold that Baum belongs in the Tri-State League, while critics on the coast hold that Baum belongs to the Coast League. In the meantime Secretary Farrell of the National Association is trying to determine the exact status of Baum. Spider is making a good salary as an expert telegrapher for one of the big daily newspapers in San Francisco.

First blood for St. Mary's in their series with Stanford University.

Dunn, who played left field for St. Mary's in yesterday's game, tapped out three hits yesterday against Stanford, which is going some for a member of St. Mary's second team.

Goodell's curves failed to fool the keen-eyed hitters of the St. Mary's College team yesterday.

That Krause boy of the St. Mary's first team appears to be a very capable ball player. His pitching and batting were features of the game at Palo Alto yesterday.

Since then he has won some good fights up north and boxed a draw with Kyle Whitney.

McLaughlin has boxed in this city several times and has always put on a good fight. He fought George Brown to a standstill at Sacramento a short time ago and has beaten such men as Rough-House McDonald and George Petersen.

The preliminaries of the show will bring together some promising youngsters. Willie Hagan, the boy who knocked out Young Herrera, will mix it with Abel Dufrane, a very clever lad. Kid Franks will meet Otto Horn, and this go-slow pro boxer, and one, Jack Bruckes, a new comer, is to clash with Kid Rogers and Young Spider Kelly, will fight it out with Frank Johnson in the curtain-raisers.

TENEMENT TEACHING

It is really the mission of the so-called frills to affect directly the activities of human life. Go to the tenements if you would see the results. It is an actual fact that because of the instruction they received in the public schools the girls of the East Side employed in shop and factory and office are making their own clothes at home. The majority of them, at a time when having a dress skin, as skillfully as the ordinary dressmaker, which as every woman knows, is an immense saving for a limited income.

Even more important in its bearing on the home life of the present as well as the future, is the domestic science frill, which includes instruction in the arts of housewifery, cooking and nursing. Though Sadie presides temporarily in an office most Sadies find their ultimate place in presiding over a home where they need to know some of these things. But Sadie goes to the market to buy the food of the family in which to apply her newly acquired knowledge. She takes it directly to the flat in the ninth layer of that East Side tenement where her mother's days are spent over the washboard.

In the model school kitchen she learns, first of all, cleanliness, for while the cooking lesson is in progress perfect order of the surroundings is insisted upon. The school pots and pans are to be kept bright and the table glass with sweet. Sadie decides that the family profession would be better that way, too, and she goes home to scrub and to sweep out dark corners that, perhaps, her weary mother never reached. She also brings the strange new idea that it is neither healthful nor economical to feed the family from the delicatessen shop, as is the custom of nine-tenths of the tenement population, until their children tell them better.

She herself, with her school recipes, concocts the palatable dishes which at half the price provide twice the nourishment. Her mother, meantime, and her mother gradually adopts the new way. Sadie also introduces to the family the use of a tablecloth and to table manners, for at school they teach her not only how to cook a meal but how to serve it and how to eat it properly.—Broadway Magazine.

LEADERSHIP.
"Pa, what's a political leader?" "A man who is able to see which way the crowd is going and follows with loud whoops in that direction."

PROBABLY.
"Who was it said, 'When suspicion comes in the door, love goes out the window'?"

"Probably somebody who lived in a flat and knew there wouldn't be room for both."

DIED.

WROLSTAD. In the city, February 13, 1897. Josie Wrolstad, beloved daughter of John and Anna Wrolstad, a sister of Mrs. N. H. Johnson and Alfred Martin, Louis and Mabel Wrolstad, a native of Scandinavia. Wav-pan, county, Wisconsin, aged 20 years, 3 months 4 days.

WARM AGAINST
LIQUOR MEN

Johnson Would Hang Men Who
Sell Liquor to Boys and
Girls.

(Special to THE TRIBUNE)

SACRAMENTO Feb 14.—The practice of selling liquor to minors is one of the most diabolical practiced in this country. No punishment is too harsh to inflict on a saloon keeper who sells liquor to our boys and girls and I say that I would be willing to send a mob to hang a man who would be guilty of such a thing.

These were the unmissioned words of Assemblyman Johnson while discussing one of the bills which was introduced in the assembly by the late John J. Burke of Oakland and which was temporarily passed in the lower house two days ago.

Assemblyman Stetson of Chico suggested to go home and before the sun set on the ground that it was entirely too drastic. In fact the measure proposes a fine and a term in the county jail for a minor who misleads his buyers for the purpose of securing liquor from liquor dealers.

COST ON PARENTS

Costar said that the bill would not prevent minors from misrepresenting their ages but the purpose mentioned but it would be the parents of the minors who would have to pay the fine in order to take the children out of jail. Devil or Sinner is the same view of the case. It was then that Johnson opened his vote with

Don't be continual talk about hardships. Don't talk about any measure being too drastic. If you see a rathole gunning to bite you off, then feed it and it will eat it. It reads to strike, you would not hesitate to shoot it out at once.

Assemblyman Isherman of Butte and Forbes of Inverness took the views of Costar and Devil and the meeting was set over till Wednesday when another attempt will be made to amend the bill so as to suit the views of the objectors.

ECLIPSED

The only daughter of the multimillionaire was born with only one eye when she was born. The stillborn millions of her rival, the wife of George Washington, in their first meeting, she is still but has remained with only one eye.

Then after a pause—
But I shall eclipse her yet. Just wait.

ANDERSON TOUCHES ON
MORAL ATMOSPHERE

Senator From Santa Ana Dissatisfied With
People He Is Compelled to Mix
With at Capital.

(Special to THE TRIBUNE)

SACRAMENTO Feb 14.—In the Star of this city last evening there was published an interview with Senator Anderson of Santa Ana in which the following which was suggested by a reference to the alleged escape of Senator Greenwell of Ventura at Bakersfield appeared.

Such things are disgraceful and I regret that this body cannot take some action in the matter. In fact, some women around here are of the half-world and it is a shame that decent married men like myself are forced to come in contact with them. It is a shame that we have to sit in the same chamber with such people. It is a shame that we are compelled to sit in the same chamber with some of the senators because they are no better than the women with whom they associate. The last legislature was terrible from the standpoint of morals but this is the worst that I have ever attended.

GREENWELL MATTER

As I look at it, we cannot take any official cognizance of the Greenwell episode because it is a private matter and does not affect this body as a body. We could not appoint a committee to investigate the disgraced senator because that would be usurping the functions of the courts. The most that we can do is to refuse to grant any further leave of absence to the man and let it go at that.

EFFECT OF ARTICLE

This article attracted the greatest attention in this city and within a few minutes after the paper appeared on the streets it had been read by nearly everyone connected with the State capital.

Senators and assemblymen who

were spoken to on the subject by the TRIBUNE correspondent declared that they could not believe that the senator in question had said anything of the kind. They all felt, however that if the charge had been made it was to be regretted, but at the same time, they did not think that the matter could be taken notice of in an official manner.

ANDERSON'S CORRECTIONS.

The article was shown to Senator Anderson and the gentleman was asked if he had been quoted correctly. He extract above printed, and stated that some of the matter in the interview was reproduced at least in spirit.

I do not use the term half-world.

Neither did I use the word attaches. I did not refer to decent married men by the use of the words like myself. I did not say that it was a shame to sit in a chamber with senators because they are no better than the women with whom they associate.

I could not say that of all senators because I have been in contact with them and it is a shame that we are compelled to meet objectionable people. I spoke with the reporter in confidence.

Commenting on the views of Senator Anderson as above expressed, a brother senator said:

I wonder where Senator Anderson learned so much and if he did not know whereof he spoke, why he spoke at all.

INCREASE IN ADVOCATES.

It is understood that the number of members who have already signed their willingness to vote for the submission of a constitutional amendment on the subject to the people is greatly in excess of that of any preceding session at which this subject was introduced.

ORGANIZATIONS AT WORK.

This has been credited to the efforts of several organizations in San Francisco which have been active in the matter for some time and which have moved so quietly as to have attracted but little if any attention from the enemies of the proposed legislation.

NEW AND MODERN METHOD.

This method of warfare is a radical departure from that which has been employed by the advocates of equal suffrage in the last five sessions when the subject was also up for consideration.

In those days just as regularly as the houses assembled in the morning just as surely came the advocates of women's suffrage and those advocates remained on hand not only the time of adjournment but infrequently after business had closed, in the attempt to convince members who were often unwilling listeners why they should vote for the enfranchisement of women.

Those campaigns were tiresome to the women to the legislators and valuable as a means of advancing the merits of the cause.

Since the opening of the present session there has not been a woman suffragist on the floor of either house.

They have been advocates of the cause before the committees on constitutional amendments and especially before the committee on the subject of the assembly with the result that there has been a majority report in favor of the proposition returned to the house. The report is upon Assembly constitutional amendment number 1.

HEARING ON TUESDAY.

This amendment was made a special order for several days but the order was changed and now next Tuesday at 10 o'clock in the morning the subject will be heard. The date will be the 1st of March. Assemblyman Johnson and that gentleman says that he has been reserving his strength for as elaborate and as forcible a presentation of the affirmative of the subject as is possible for him to give it.

The amendment in question changes section 1 of article II of the State constitution only in a few instances in the matter of those who are entitled to citizenship in this State.

In the first line of the section referred to the constitution has the word "and."

Every native male citizen of the United States is in the proposed amendment the words are "Every native citizen, thus eliminating the distinction of male citizens, of the constitution."

In the third line of the constitution appear the words "and every naturalized male citizen thereof."

The word "male" is here also omitted in the amendment. Still another change is made in the seventh line where the following words occur:

"and of the county in which he claims his vote." This is amended by inserting the words "or she" after the word "he" and later along the line "or" "she" has been inserted for "his" The words "or she" are inserted after "his" in the seventh line.

The effect of these amendments is to make the section to read that there are female citizens in this State as well as males and that after those female citizens have reached their twenty-first year, they are entitled to exercise the right of franchise as well as the males who are entitled to the rights of citizenship.

HECK WANTS \$5000

FROM CALIFORNIA

Special to THE TRIBUNE.

SACRAMENTO Feb 14.—Assemblyman Walsh of Oakland introduced in the assembly a measure for the reduction of Heck's wage of \$5,000

to \$3,000 a year.

Speaker of the house of Assemblyman Savage of San Pedro said he was surprised that such an amendment should be offered by a Senator who had agreed to the inordinate increase of the salaries of attaches of the clerical department of Los Angeles.

Those attaches had permanent positions while the laborers worked only at intervals.

SENATOR CARTER OF LOS ANGELES

Senator Carter of Los Angeles said that his city was about to undertake some great improvements and that the passage of the amendment would keep the cost of these improvements within reasonable bounds whereas the adoption of a minimum vote of \$3 per day would increase it to an unknown quantity.

SENATOR SAVAGE'S EFFORT.

Senator Savage of San Pedro said he

was surprised that such an amendment should be offered by a Senator who had agreed to the inordinate increase of the salaries of attaches of the clerical department of Los Angeles.

Those attaches had permanent positions while the laborers worked only at intervals.

SENATOR SMYTHE IS EXONERATED

Special to THE TRIBUNE.

SACRAMENTO, Feb 14.—The assembly committee appointed for the purpose of examining charges alleged to have been made by Assemblyman Smythe of Lake county that the members of the assembly took part in an organization on the part of the late John J. Burke of Oakland has reported that Senator Carter of Los Angeles was guilty of having indicted the article which was published in several papers at the time.

The committee has reached the conclusion that the article was written by a newspaper reporter who was at that time located in this city.

They came to the conclusion for the reason that the reporter in question, when given an opportunity to show that Smythe had written the article referred to came here and proved his assertion. They based their report also upon facts adduced before them by the attorney employed by Smythe.

MEET IN CONFERENCE.

Today Stetson together with Assemblyman Cutten had a conference with Senator Leavitt of Oakland for the purpose of ascertaining whether or not both houses might not be able to agree upon an amendment to the Held amendment which would tend to safeguard the present primary until a direct primary law should be enacted.

DRAFT SUGGESTED

After an extended conference, Senator Leavitt admitted that he thought a satisfactory amendment could be devised and with that understanding Assemblyman Cutten left with the senator the following rough draft of such an amendment.

Provided, however, that until the Legislature shall enact a direct primary law under the provisions of this section nothing herein shall of itself be construed to repeal the existing laws or affect amendments thereto.

This draft will be considered by the judicial committee of both houses.

BIG FIGHT FOR
EQUAL SUFFRAGE

Whirlwind Campaign by Women for Right to Vote Opens Tuesday Next.

Special to THE TRIBUNE.

SACRAMENTO Feb 14.—Women suffrage is to have an airing at this session of the Legislature, though up to the present time, so far as outward appearances go very little attention has been paid to the subject. The contrary is the case however, so far as the work, which has been accomplished, in this direction is considered.

It looks now as if there would be a whirlwind campaign of both houses and especially of the members who are known to be hostile to the granting of the right of suffrage to women.

Attention it is understood, will be centered in them and local influence will be brought to bear upon them for the purpose of inducing them to change their minds on the subject.

It is understood that the number of members who have already signed their willingness to vote for the submission of a constitutional amendment on the subject to the people is greatly in excess of that of any preceding session at which this subject was introduced.
